جستجوی راهنماهای عملکرد بالینی

۱۳۹۳/۱۱/۷

ارائه از: زهرا فتحی فر

راهنمای عملکرد بالینی ؟

Clinical Practice Guidelines

- گایدلاین های بالینی مجموعه ای نظام مند از آخرین و معتبرترین شواهد علمی هستند که شیوه های برخورد بالینی با یک بیمار را بطور طبقه بندی شده با در نظر گرفتن اولویت ها، اثربخشی و هزینه- اثربخشی بیان می کنند.
- راهنماهای بالینی برای بهبود کیفیت ارائه خدمات برای بیماران و دادن اطلاعات مناسب برای تشخیص های خاص و درمان های ویژه طراحی می شوند. منجر به ارتقاء سلامت شده و از تحمیل هزینه های اضافی جلوگیری می نمایند.

SIGN 141 British guideline on the management of asthma

REVISED EDITION NOW ONLINE

SIGN 141 BRITISH GUIDELINE ON THE MANAGEMENT OF ASTHMA

SIGN 141 British guideline on the management of asthma, is produced jointly by SIGN and the British Thoracic Society and is updated biennially.

This update includes a new section highlighting key recommendations for implementation (section 2), completely re-written sections on supported self management (section 4) and organisation and delivery of care (section 13), and an extensively revised section on non-pharmacological management.

All other sections, with the exception of diagnosis and monitoring (section 3) and asthma in adolescents (section 10) have also been revised and updated to reflect new evidence that has become available.

It is hoped that the updated guideline will continue to serve as a basis for high quality management of acute and chronic asthma in primary and secondary care.

Canadian Medical Association Infobase : Clinical Practice Guidelines (CPG)

The screenshot shows a web browser window with the URL <http://www.cma.ca> highlighted in a yellow box. The browser's address bar shows the URL and several tabs. The website header includes the CMA logo (Association Médicale Canadienne / Canadian Medical Association) and a search bar with the placeholder text "Search...". Navigation links include "Not a CMA Member? Join Now", "Registration for new users", and "Log In". A horizontal menu contains categories: "MEMBERSHIP", "CLINICAL RESOURCES" (highlighted), "PROFESSIONAL DEVELOPMENT & CME", "PRACTICE MANAGEMENT & WELLNESS", "FINANCIAL PLANNING & ADVICE", "ADVOCACY", and "ABOUT CMA". Below the menu, the breadcrumb trail reads "Clinical Resources > CMA Infobase - Clinical practice guidelines > Titles". There are "Print" and "Share" icons. The main heading is "CMA Infobase: Clinical Practice Guidelines Database (CPGs)". A paragraph states: "The CMA Infobase is a database of evidence-based Canadian clinical practice guidelines (CPGs). Maintained by the Canadian Medical Association, it includes approximately 1,200 CPGs developed or endorsed by authoritative medical or health organizations in Canada." Below this is a search bar with a magnifying glass icon, followed by "Advanced Search" and "Search Tips" links. A "Browse by:" label is next to a dropdown menu currently set to "please select". The "Search Results" section is visible at the bottom. The Windows taskbar at the bottom shows the time as 10:27 AM on 1/26/2015.

National Health and Medical Research Council (NHMRC): Clinical Practice Guidelines

http://www.nhmrc.gov.au

The screenshot shows the NHMRC website interface. At the top, there is a navigation bar with links for NHMRC, RGMS, Public Consultations, Australian Clinical Trials, Human Research Ethics Portal, Clinical Practice Guidelines Portal, and Research Translation Faculty. Below this is the Australian Government logo and the NHMRC name. A main navigation menu includes HOME, GRANTS & FUNDING, RESEARCH, HEALTH ETHICS, GUIDELINES & PUBLICATIONS, and HEALTH TOPICS. A search bar is located on the right side of the navigation menu.

[Ministry of Health](#) > [Publications](#) > [Guidelines](#) > [Clinical Practice Guidelines \(CPG\)](#)

Clinical Practice Guidelines (CPG)

MOH is committed to improving clinical practice through the development of **clinical practice guidelines (CPGs)** based on the best available scientific evidence. These guidelines are produced by Ministry-appointed workgroups comprising experts from the Academy of Medicine Singapore, the College of Family Practitioners Singapore, other professional societies, and stakeholder representatives including patient representatives. Topics for the guidelines are selected and developed with the input of these stakeholders.

These publications are guidelines to clinical practice, based on the best available evidence at the time of development. Adherence to these guidelines may not ensure a successful outcome in every case. These guidelines should neither be construed as including all proper methods of care, nor exclude other acceptable methods of care. In addition, evidence-based clinical practice guidelines are only as current as the evidence that supports them. Users must keep in mind that new evidence may supersede recommendations in these guidelines.

Publication Criteria for the English Version of Clinical Practice Guidelines (CPG) in MINDS

MINDS has been publishing CPG in English according to the following criteria:

1. The original Japanese CPG has already been published on the MINDS website.
2. The English version of Japanese CPG has been produced by the guideline development group.
3. The publication consent for the English version has been obtained from the authors.
4. The English version was approved for publication by the CPG evaluation committee in MINDS.

New Zealand Guidelines Group

The New Zealand Guidelines Group (NZGG) was an independent, not-for-profit organisation, set up in 1999 to promote the use of evidence in the delivery of health and disability services. The NZGG went into voluntary liquidation in mid-2012.

The NZGG created evidence-based guidance, useable tools and implementation approaches. They also promoted the use of evidence in clinical and personal practice.

This page provides links to their evidence-based publications, all of which are now available on this website. Other NZGG publications, such as their annual reports, are available on the [Ministry library online catalogue](#).
