TRIP

Turning Research Into Practice

The image shows a screenshot of the Trip Database website as viewed in a Windows Internet Explorer browser. The browser's address bar shows the URL <http://www.tripdatabase.com/>. The browser's menu bar includes File, Edit, View, Favorites, Tools, and Help. The toolbar contains various icons for navigation and utility, including DesktopDating, Go, Login, Chat, YouTube, Facebook, Twitter, and others. The main content area of the website features the Trip logo, a search bar with a magnifying glass icon, and a Search button. To the right of the search bar are buttons for Advanced search and PICO search. In the top right corner, there are links for Login and Sign up, along with social media login options for Facebook and Twitter. Below the search bar, the text reads: "Find evidence fast. Trip is a tool for you to find and use high-quality clinical research evidence." At the bottom, there are links for "About Trip" and "Sign up now".

Find evidence fast

Trip is a tool for you to find and use high-quality clinical research evidence.

[About Trip](#) or [Sign up now](#)

معرفی

- ❖ یک موتور جستجوی بالینی است که به کاربر این امکان را می دهد که به راحتی و به سرعت اطلاعات بالینی مبتنی بر شواهد برای بالا بردن کیفیت درمان یا مراقبتی خود جستجو و بازیابی کند.
- ❖ در سال ۱۹۹۷ با شعار ” Find evidence fast “ شروع به کار کرد و به عنوان یک منبع برای جستجوی اطلاعات بالینی مبتنی بر شواهد مطرح شد.
- ❖ غیر از شواهد تحقیقی جستجو در منابعی چون عکس، فیلم، اطلاعات برای بیماران، اخبار و دوره های آموزشی را نیز امکان پذیر می سازد.

ادامه

- اطلاعات آن حدود دوهفته تا ماهی یک بار روزآمد می شود.
- منابع انتخاب شده را می توان ذخیره، Email و یا وارد نرم افزارهای مدیریت منابع کرد.
- بیش از ۱۰۰ میلیون بار جستجو که ۷۰٪ آن افراد بالینی و ۳۰٪ افراد دیگر نظیر کتابداران، بیماران
- سهامداران آن Jon Brassey and Dr Chris Price
- تامین مالی آن از طریق تبلیغات، دادن مشاوره، اطلاع رسانی محتویات جدید، طراحی وب سایت و ... صورت می گیرد.

Trip rapid review

The screenshot shows the Trip Database website interface. At the top, there is a search bar with the query "pregnant diabet* women vitamin D" and a "Search" button. To the right of the search bar are buttons for "Advanced search", "PICO search", and "Trip Rapid Review". Below the search bar, there is a section titled "Trip Rapid Review" with a brief description of the system and a "Search" button. Below this, there are navigation tabs for "Evidence", "Images", "Videos", "Education", "Patient Information", "News", "PubMed Clinical Queries", and "DynaMed". The main content area shows search results for "pregnant diabet* women vitamin D", by quality. The results are displayed in a table with columns for "Article", "Result", "Sample Size", and "Score". The first result is "The Vitamin D Antenatal Asthma Reduction Trial (VDAART): Rationale, design, and methods of a randomized, controlled trial of vitamin D supplementation in pregnancy for the primary prevention of asthma and allergies in children." with a "Positive" result and "Medium" sample size. The second result is "Time for large randomised trials of vitamin D for women with gestational diabetes mellitus to improve perinatal health outcomes." with a "Positive" result and "Unknown" sample size. The third result is "Maternal serum levels of 25-hydroxy-vitamin D during pregnancy and risk of type 1 diabetes in the offspring." with an "Inconclusive" result and "Small" sample size. On the right side of the results, there is a yellow box titled "How to Trip Rapid Review" with three steps: Step 1: Select articles relevant to your search; Step 2: press "Analyse"; Step 3: review the result, and maybe amend the result or sample size if you know better! If we're unsure of the overall sentiment of the trial we will display.

Trip Rapid Review

How to use Trip

Trip Rapid Review

Trip Rapid Review is a first: a free, public-facing system to rapidly analyse and synthesis multiple research articles. Due to the highly innovative nature of this product we make no claims regarding accuracy. The system has been optimised for single intervention studies (be it placebo controlled or versus 'usual care').

We have released this to show what is possible with modest investment and we're also hoping that our work will stimulate further work – copying, following, and modifying our techniques. For further information on these, [click here](#).

Good luck, have fun, and be sceptical of the results!
